

The track shape has been studied to integrate the flexible LED STRIPS with ease and without seeing them.

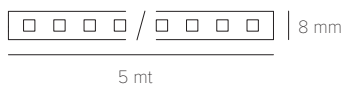

When the track is suspended from the ceiling, the LED STRIP is in a Up Light position for indirect ambient lighting.

When the track is fixed on a horizontal or vertical surface, the LED STRIP is placed in the Side Light position for diffused lighting on the surface.

Flexible and dimmable LED strip.
Attachment to the track using the integrated double sided tape.
Can be cut to measure.

210 LED/mt - 10W/mt - 24V
[580 lm/mt - 3000K / 790 lm/mt 4000K]

STRIP LED

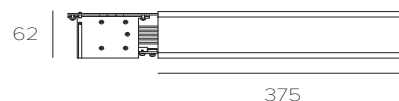

- 15301 3000K
- 15302 4000K

End power supply for STRIP LED

- 25042 Satin silver LEFT
- 25342 White LEFT
- 25542 Black LEFT

- 25040 Satin silver RIGHT
- 25340 White RIGHT
- 25540 Black RIGHT

Integrated power supply with constant voltage output.
Closing terminal included.

INPUT 220/240V AC 50/60 Hz
OUTPUT 24V - 60W

Remote power supply for STRIP LED

- 25120 70 W
- 25125 150 W

Power supply with constant voltage output.
It must be housed in a remote position with respect to the installation.

INPUT 220/240V AC 50/60 Hz
OUTPUT 24V - 70W / 150W
